

Metal Finisher / Welder's Helper / Laborer

Specific Mechanical Systems Ltd. is a manufacturer of craft brewing and distillation equipment, pressure vessels, food processing equipment, pharmaceutical vessels, and water/waste water treatment plants. Management and employees are dedicated to becoming a global leader and require motivated and driven applicants looking to contribute and grow with the company over the long term. The successful applicant will join an exciting and positive team, with a great working environment and an excellent benefits package.

A Metal Finisher / Laborer is needed to join the Finishing Department, to work on the shop floor on brewery vessels, and to be welder's helper.

This position is responsible for metal preparation, metal cleaning and final system polishing and shining. You will work primarily with stainless steel and copper. Our benefits include extended medical and dental, plus a company-matching registered pension plan.
